

Subject: EVS  
Chapter 2: Our body

# body

head

arm

foot

hand

chest

leg

# Summary

- We are same in many ways.
- We are also different from one another,
- Our body has different parts.
- Each part of the body has a different function.
- Eyes, ears, nose, tongue and skin are our sense organs.

**Directions: Guide the students to understand and revise the same.**
