

EVS

Our Neighbourhood

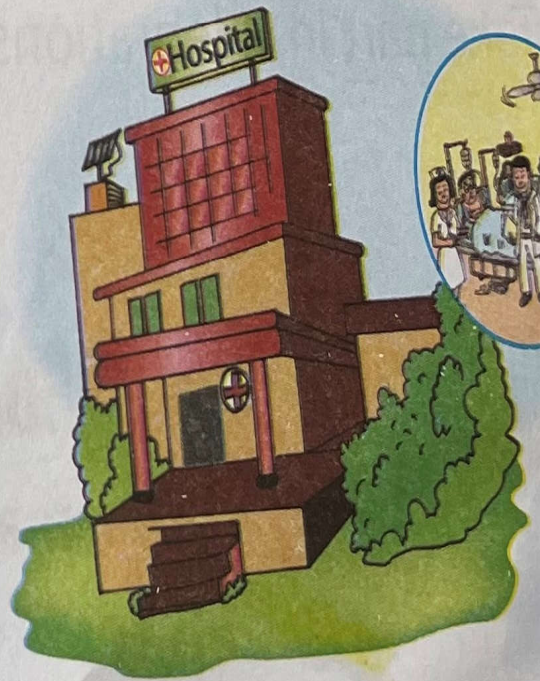

Hospital

When we are sick, we go to a clinic or a big hospital.

There are many doctors and nurses in a hospital.

The hospital has a **pharmacy** where medicines are sold.

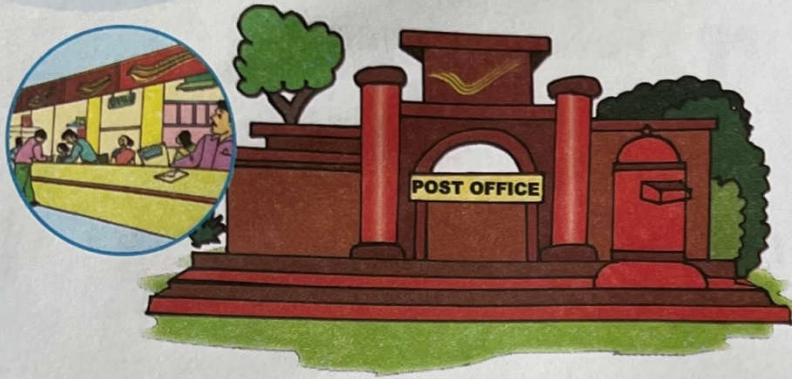

Know more

A hospital has one or more ambulances.

An ambulance brings a patient from his home to the hospital for treatment.

Post office

We buy **envelopes** and **stamps** at the post office.

We can also send **parcels** and letters through the post office.

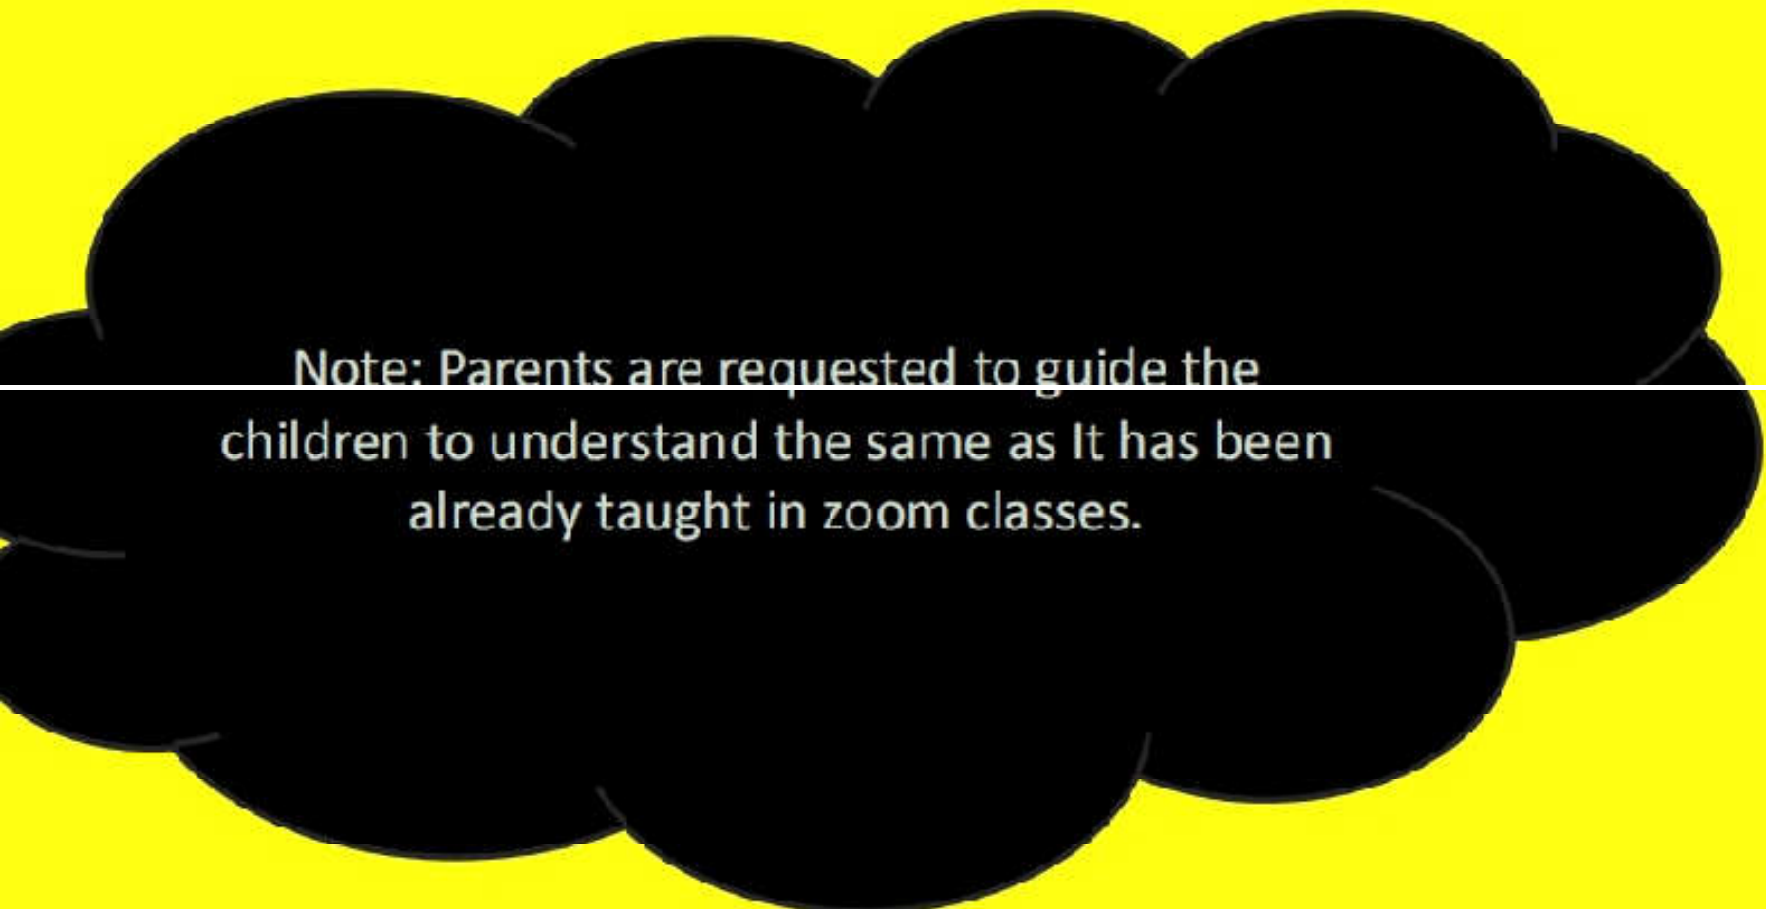

Police station

The neighbourhood police station has many **policemen** and **policewomen**.

They keep the neighbourhood safe.

We report a theft at the police station.

Note: Parents are requested to guide the children to understand the same as It has been already taught in zoom classes.
